JOMP | MACHINING & FABRICATION

JUST ONE MORE PART, LLC • Pennsylvania, USA

Manufacturing sourcing, production support and project coordination for OEMs and commercial manufacturers. JOMP manages quoting, supplier coordination, purchasing, production follow-up, finishing and delivery through independently operated production partners.

CORE MANUFACTURING SERVICES

Metal fabrication	Laser/plasma cutting, forming, bending, welded assemblies, brackets, guards, enclosures, frames and plate/tube fabrication
Machining & hardware	CNC milling and turning, shafts, spacers, pins, bushings, fixtures, industrial replacement parts and hardware sourcing
Finishing & assemblies	Powder coating, plating, painting, galvanizing, mixed-process assembly, packaging and freight coordination
Woodworking & millwork	CNC-routed sheet goods, cabinets and display components, custom wood parts, shop fixtures and signage substrates
Commercial printing	Printed graphics, large-format print, signage, labels, display panels, sample boards and combined print-and-fabricate work
Tube and wire	Tube/wire parts, bending and assembly coordination through suitable production partners

TYPICAL COMPONENTS & BUYER NEEDS

Equipment brackets, covers, guards, fixtures, welded supports, sheet-metal parts, shafts and bushings; prototype and short-run work; repeat production, overflow manufacturing and domestic second-source requirements.

WORKFLOW

1. RFQ review → 2. Process and partner selection → 3. Quotation and purchasing → 4. Production follow-up and delivery.

NAICS CODES

332322 — Sheet Metal Work Manufacturing (primary)
332312 — Fabricated Structural Metal Manufacturing
332710 — Machine Shops
332999 — All Other Miscellaneous Fabricated Metal Product Manufacturing

PRODUCT SERVICE CODES (PSC)

5340 — Hardware, Commercial | **9515** — Plate, Sheet, Strip, Foil, and Leaf

SUPPLIER / CUSTOMER FIT

Custom component purchasing, machine-builder and OEM supply, industrial equipment and automation parts, metal fabrication overflow, short-run and recurring production, material handling, shop fixtures, display manufacturing and graphics.

BUSINESS MODEL & QUALITY

JOMP is an independently operated manufacturing-services and project-coordination business. Production is performed by suitable external partners. Partner equipment, production capacity, certifications, inspection and material traceability are confirmed as needed for each job; JOMP does not claim its partners' certifications as its own. JOMP holds no confirmed ISO certification.

RESTRICTIONS

Controlled drawings, ITAR/restricted programs, certified structural work, field installation, engineering design or bonding are outside ordinary service scope unless separately evaluated and approved. Do not send restricted technical data through public email or web forms.
